INTRODUCTION

This parts list identifies service replacement parts for the Carrier Transicold Diesel-Driven Generator Set listed in the model chart below. This parts list does not include detailed replacement parts for the engine listed in the first chart below. Detailed parts identification for these items may be found in the applicable parts list. The form numbers for the engine omit revision dash numbers. For example, the latest engine list may have an -01 added to the basic number to read 62-03459-01. Therefore, when forms are ordered the latest revision will be sent.

MANUAL/ FORM NO.	ENGINE PART NUMBER	EQUIPMENT COVERED	TYPE OF MANUAL/FORM
62-11362 *	26-00128-22	V2203-DI	Workshop
62-11335 *		V2203-DI	Engine Parts List

* When referring to the engine manual, please note that this engine has been assembled using a two piece oil pan.

MODEL AND PRODUCT IDENTIFICATION (PID) NUMBERS

Beginning with early 1995 production, Carrier Transicold began using a parts identification (PID) number in the format of UG0000 in addition to a model number. In this manual, the PID number is shown in boldface to point out variations within models.

ORDERING INSTRUCTIONS

All orders and inquiries for parts must include:

- Part Identification Number (**PID**)
- Unit Serial Number
- Part Number
- Description of Part
- Quantity Required

Address all correspondence for parts to the following address:

CARRIER TRANSICOLD DIVISION
Replacement Components Group
TR-20, P.O. Box 4805
Syracuse, New York 13221
or
Fax to: (315) 432-3778

GENERAL NOTES

To find replacement parts, consult table of contents, and turn to the appropriate page for the illustrated breakdown of replacement parts. The following letter designations are used to classify parts throughout this list:

A/R *As Required.*

NLO *No Longer Offered*

PID *Parts Identification Number* – essential to identify unit configuration.

PL *Purchase locally.*

SST *Stainless Steel* – 300 Series unless otherwise specified.

SV *Suffix SV* – added to the part number designates service part replacement part.

PAINTED PARTS COLOR SYSTEM

Available paint colors: (Other than Standard Carrier Transicold White or Hull Blue)

PAINT COLOR	PART NO.
Sky Blue	36-00048-28
Flame Orange	36-00048-27
Citrus Orange	36-00048-29
Raven Black	36-00048-04
Red	36-00048-57

Overview of the new numbering system:

A typical part number appears as: 79-01741-00 (access door). To order an access door in sky blue, add the last three digits of the special color paint and then add the specific dash number for the color of that paint.

For example:

Sky blue paint P/N is 36-00048-28.

The last three digits of the blue paint are: 048

The specific dash number is: 28

The painted parts system looks like this:

79-01741-00 Standard P/N for the access door.
 048 Last 3 digits of special color paint.
 28 Specific dash # for color of paint.

79-01741-0004828 P/N For Special Painted Door

Data Entry Note:

The above is an example of how most parts should be ordered. Certain customers may have character constraints that will only allow them to input 14 characters into their system; our new painted part numbers are 16 characters long. Therefore, they should order these parts without the dashes. The entries will look like the following: 79017410004828.
